

Tech4Good Global Challenge #1: Energy for Ukraine

Scaling a Spanish Innovative Solution That Substitutes Diesel Generators in Ukraine and Abroad

March 3, 2025 – Kyiv, Ukraine – From March 3 until April 3, 2025, **MY SOLAR PLANT** by **XIZAN ENERGY**, invented by **Luis Casla** (Madrid, Spain) an **innovative dual-use solar generator** designed for **residential and portable energy needs**, will be exhibited and deployed in Kyiv in collaboration with **LLC "Innovation Holding Sikorsky Challenge"** at **Igor Sikorsky Kyiv Polytechnic Institute**.

On March 11, 2025, Kyiv Polytechnic Institute and Innovation Holding Sikorsky Challenge invite **manufacturers of batteries for alternative energy sources, enterprises specializing in the production of solar panels, partners, investors, customers, and enterprises** interested in developing the production of innovative energy technologies to join the exhibition event **“Scaling a Spanish Innovative Solution for Energy in Ukraine and Abroad.”**

This exhibition and deployment of XIZAN is part of the **Tech4Good Global Challenge #1: Energy for Ukraine**, supported by the **Embassy of Ukraine in the Kingdom of Spain**.

Date: March 11, 2025

Time: 11:00 AM Kyiv Time

Location: Kyiv, KPI

Format: Offline meeting with **Luis Casla**, founder of **XIZAN My Solar Plant**, representatives of **Innovation Holding Sikorsky Challenge**, and **KPI**.

Registration Link: <https://forms.gle/ED6xz1CjtXG8WDmJ6>

Potential Applications of XIZAN – MY SOLAR PLANT in Ukraine:

- Alternative to diesel generators
- Backup power for homes during energy crises and blackouts
- Reliable energy source for displaced communities and rural areas
- Support for critical infrastructure and emergency response systems
- Opportunities for local manufacturing, job creation, and contribution to Ukraine's renewable energy goals
- Small-scale manufacturing feasible for experimental testing without certification, providing a low-cost entry point for Ukrainian partners
